### **Consent to create, use and publish your photo- and video recordings and interviews (optional)**

You have the option to give your consent to interview, film, photograph, tape, or otherwise make a video reproduction of you and/or record your voice (together called “photo- and videorecordings and interview statements”).

If you consent accordingly, the GIBACHT consortium uses your photo- and videorecordings and interview statements for documentation, educational and awareness purposes, as well as for information and public relations. In particular your consent includes the permission to (1) publish and use your name in connection with the photo- and video recordings and interview statements, (2) make quotes from the photo- and video recordings and interview statements (or excerpts of such quotes), and (3) publish these in part or in whole in print media (such as newspapers, magazines, etc.), television, radio, online platforms (internet, websites, and social media), and/or in mailings or advertisements. The photo- and video recordings and interview statements may be used to the extent described, free of charge, without limitation in terms of time, geographic area or content and in association with other media, texts, image and film works. We may change, duplicate or supplement the photo- and video recordings and interview (e.g., use of excerpts, montages, photo-technical or digital alienations, colorations and/or representations in black and white) as long as your personal rights do not conflict with this. Your photo- and video recordings and interview statements will not be used for any commercial purposes.

### **3. Withdrawal of consent**

**You can withdraw your consents with effect for the future at any time.**

**International data transfer:** Please be aware, that if you choose to withdraw your consent regarding the transfer of your personal data outside the EU or EEA, you cannot participate in the GIBACHT programme anymore, as such international data transfer is absolutely necessary in order to conduct the GIBACHT programme.

**Photo- and video recordings and interviews:** Please be aware, that after withdrawal of your consent regarding the use of your photo- and video recordings and interviews statements, we may continue to use the print products containing your photo- and video recordings and interviews statements which we have already produced. However, we will remove your photo- and video recordings and interviews statements within the next edition. Please also understand, that we cannot recall the print products we have already published and that the Internet “does not forget”. Therefore, it is possible that your photo- and video recordings and interviews statements may still be found on the internet after erasure from the original website or social media page.

To withdraw your consent please contact the BNITM, serving as the central point of contact, via [gibacht@bnitm.de](mailto:gibacht@bnitm.de). Alternatively, you can also directly contact one of the partners of the GIBACHT consortium.
