

Epidemiology & Control of Infectious Diseases in Outbreak Settings (EPICID)

11 - 29 November 2024

Bernhard Nocht Institute for Tropical Medicine in Hamburg, Germany

This is a 3-week tropEd-accredited intensive course which aims to provide participants with an understanding of the principles of epidemiology and the control of infectious diseases, in particular within the context of outbreaks, and to develop their skills in designing, conducting and reporting outbreak investigations. To complement the theoretical content, the course uses interactive simulation- and computer-based practical sessions, including 'R' modules in collaboration with Applied Epi.

Course fee: 900 € - 1650 €

Early bird rates and reduced fees for students and citizens of low- and middle income countries.

Applications are open until 31st July 2024.
