

## Leibniz Center Infection (LCI)

The Leibniz Center Infection (LCI) is a dynamic and flexible research alliance of three internationally renowned Leibniz Institutes in the North of Germany:

Bernhard Nocht Institute for  
Tropical Medicine, Hamburg

Research Center Borstel -  
Leibniz Center for Medicine  
and Biosciences, Borstel

Heinrich Pette Institute, Leibniz  
Institute for Experimental  
Virology, Hamburg

Together, they combine 220 years of excellence in infection research and provide a stimulating environment for about 600 scientists studying all aspects of a broad range of infectious diseases. The united expertise in parasitic, bacterial and viral infections perfectly qualifies LCI as the center for infection research.

For more information on LCI, please visit <http://www.lc-infection.de/>.

## REGISTRATION DEADLINE December 17, 2012

Register now as space will be limited.

Please send your e-mail to:
